Appendix A: Glossary of Terms

Safeguarding: protecting **children** from abuse and neglect, preventing the impairment of children's health or development, ensuring that children are growing up in circumstances consistent with the provision of safe and effective care, and taking action to enable all children to have the best life chances. Enabling **adults at risk** to achieve the outcomes that matter to them in their life; protecting their right to live in safety, free from abuse and neglect. Empowering and supporting them to make choices, stay safe and raise any concerns. Beginning with the assumption that an individual is best-placed to make decisions about their own wellbeing, taking proportional action on their behalf only if someone lacks the capacity to make a decision, they are exposed to a life-threatening risk, someone else may be at risk of harm, or a criminal offence has been committed or is likely to be committed.

Abuse and neglect

Physical abuse: A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child or adult at risk. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces illness

Sexual abuse: Involves forcing or enticing a child or young person to take part in abuse sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children

Emotional abuse: The persistent emotional maltreatment of a child or adult at risk such as to cause severe and persistent adverse effects on their emotional condition. It may involve conveying to a child/ adult at risk that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person; not giving them opportunities to express their views; deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed, including interactions that are beyond a child or adult at risk's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing them participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing a child or adult at risk to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Neglect: The persistent failure to meet a child/ adult at risk's basic physical and/or psychological needs, likely to result in the serious impairment of their health or development. It may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- protect a child/ adult at risk from physical and emotional harm or danger;
- ensure adequate supervision (including the use of inadequate care-givers); or
- ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's or adult at risk's basic emotional needs. Neglect may occur during pregnancy as a result of maternal substance abuse.
